4. PM-AASHA schemes to continue with additions: Centre - The Hindu

Context >>

The government has approved the continuation of the PM-AASHA scheme, with an outlay of ₹35,000 crore, to provide better prices to farmers and control price volatility of essential commodities for consumers.

Pradhan Mantri Annadata Aay Sanrakshan Abhiyan (PM-AASHA)»

- About: An umbrella scheme aimed at ensuring remunerative prices to the farmers for their produce.
- Aim: Ensuring remunerative prices to the farmers for their produce as announced in the Union Budget for 2018.
- **Components:**

Price Support Scheme (PSS):

Physical procurement of pulses, oilseeds and copra to be done by Central Nodal Agencies along with state govts. Central Govt to bear procurement expenditure & losses due to procurement up to 25% of production.

Price Deficiency Payment Scheme (PDPS):

Will cover all oilseeds for which MSP is notified. Farmers will get direct payment of the difference between the MSP and the selling price.

Pilot of Private Procurement & Stockist Scheme (PDPS):

Participation of private sector in procurement operation to be piloted. For oilseeds, states have the option to roll out the scheme on pilot basis in selected district/ APMC(s) involving private stockist.

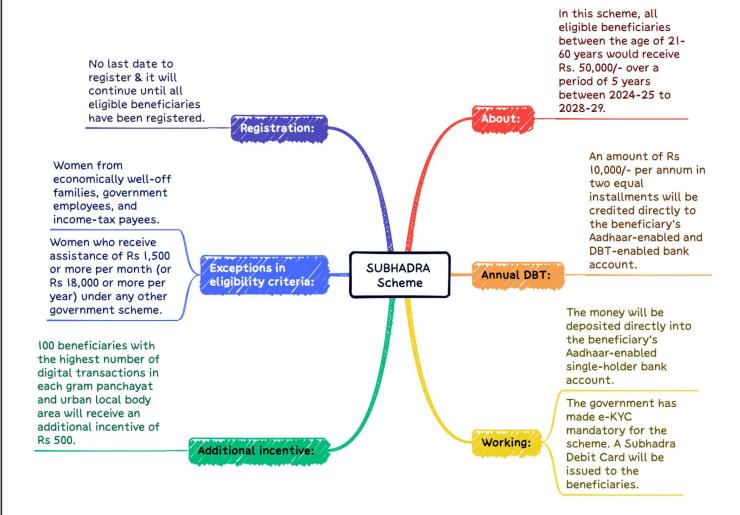

5. Prime Minister Shri Narendra Modi launches 'SUBHADRA' - the largest women-centric scheme in Bhubaneswar, Odisha - PIB

Context >>

The Prime Minister, Shri Narendra Modi launched 'SUBHADRA', the flagship Scheme of Government of Odisha, in Bhubaneswar, Odisha recently.

SUBHADRA Scheme >>

1.India to freeze talks with Pakistan on Indus waters - The Hindu/ Why India wants 'review & modification' of Indus Waters Treaty - Indian Express

Context >>

A year-and-a-half after New Delhi issued a notice to Islamabad seeking the "modification" of the Indus Waters Treaty (IWT) in January 2023, India has once again sent a formal notice to Pakistan, this time seeking the "review and modification" of the treaty.

- About: Signed on September 19, 1960 in Karachi by then Prime Minister Jawaharlal Nehru and then Pakistan President Mohammed Ayub Khan for the use of water available in the Indus and its tributaries.
- **Mediator:** World Bank
- Water sharing: India enjoys the "unrestricted use" of the three "Eastern Rivers [Beas, Ravi, Sutlei except as otherwise expressly provided" whereas Pakistan got control of the three "Western Rivers" [Indus, Chenab, Jhelum].

Why does India want to renegotiate the treaty? >>

- Change in population demographics
- **Environmentalissues**
- Need to accelerate development of clean energy to meet India's emission targets
- Impact of persistent cross-border terrorism
- Needs of 2 Indian hydel (run-of-the-river) power projects in J&K:
 - Kishanganga Project
 - o Ratle Hydroelectric Project on Chenab in Kishtwar district

Economy

8. OIDAR services sector "untapped" - Indian Express

Context >>

Many providers of Online Information and Database Access or Retrieval (OIDAR) services, particularly those based abroad and unregistered with Indian tax authorities, represent a "relatively untapped" sector with "tremendous" revenue potential, according to a report by the Directorate General of GST Intelligence (DGGI).

Online Information and Database Access or Retrieval (OIDAR) services ≫

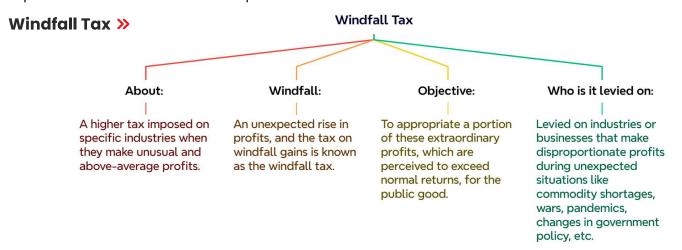

- About: A category of services provided through the medium of the internet, and received by the recipient online without having any physical interface with the supplier of such services.
- Criteria to determine an OIDAR Service: Their delivery is mediated by information technology over the internet/ electronic network and Services are automated and impossible to ensure in the absence of internet technology.

9. Government scraps windfall tax on crude petroleum - The Hindu

Context >>

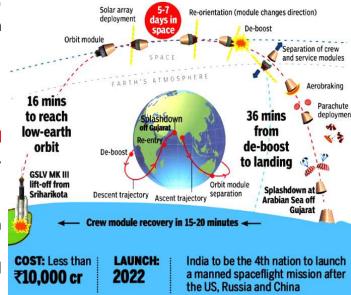

The government recently slashed windfall tax on domestically produced crude oil to 'nil' per tonne with effect from September 18.

Sci. and Tech.

10. Gaganyaan - The Hindu

- About: India's first manned mission by the MANNED MISSION Indian Space Research Organisation (ISRO) which will circle Earth at a low-earth-orbit at an altitude of 300-400 km from earth for 3 days.
- Schedule:
 - 2unmanned flights
 - 1human spaceflight
- Gaganyaan system module/ Orbital Module: It will have three Indian astronauts, including a woman.
- Payloads:
 - Crew module: Spacecraft carrying human
 - Service module: Powered by two liquid propellant engines.

- Emergency escape and emergency mission abort
- Launch Vehicle: GSLV Mk III/LVM-3 (Launch Vehicle Mark-3) the three-stage heavy lift launch vehicle.

11. Chandrayaan-4, Venus orbiter get approval from Union Cabinet - The Hindu

Context >>

Union Cabinet recently approved expansion of Chandrayaan-4 Mission to include preparatory measures for eventual manned moon mission. It also approved Venus Orbiter Mission.

It aims to achieve a soft

landing on the Moon, Chandrayaan-4 >> collect lunar rock samples, and return them to Earth & if successful, India would be 4th after US, Russia, and China in Launch Vehicle accomplishing this Mark-3 (LMV-3): It About: challenging feat. will carry the propulsion, descender, Achieving a safe and and ascender modules. gentle landing on the **Polar Satellite** lunar surface. Launch Vehicle (PSLV): It will Launch Vehicles: Collecting and storing lunar samples. transport the transfer and re-entry modules Lifting off from the to their designated Moon's surface. lunar orbits. Docking and Objectives: undocking in lunar **Lunar Propulsion** Module: Transports the Lunar Lander and Transferring samples Ascender stages to the between spacecraft Moon, similar to the modules. propulsion module used in Chandrayaan-3. Returning the Chandrayaan-4 collected samples Lunar Lander: safely to Earth. Touches down on the Moon, carrying instruments to support **Propulsion System:** the Ascender stage Responsible for and soil sampling transporting the equipment. lander and ascender stages to the Moon. Lunar Module Ascender: After Descender: Designed collecting samples, it for the lunar landing, detaches from the carrying equipment Payloads: for soil sampling. Lander, ascends to lunar orbit, and Ascender: Detaches prepares for docking. from the lander after Transfer Module: collecting samples, then lifts off from the Transfers the samples from the Ascender to Components of the lunar surface. spacecraft: the Re-entry Module, Transfer Module: propelling them back Receives samples from to Earth. the Ascender and Re-entry Module: transports them to the Designed to safely Re-entry module. return to Earth with Re-entry Module: the lunar samples. Safely brings the lunar samples back to Earth, designed to withstand the re-entry into Earth's atmosphere.

12. EARTH TO TEMPORARILY GET A 'MINI-MOON': WHAT DOES IT MEAN? - Indian Express

Context >>

According to a new study, the Earth's gravitational field will temporarily capture a small asteroid, called 2024 PT5, in late September. The asteroid will stay for two months before flying off into space. While gaining such a "mini-moon" is not new for Earth, the phenomenon is rare in most cases, asteroids either miss our planet, or burn up upon entering the Earth's atmosphere.

Mini-moon >>

- About: Very small asteroids that fail to escape Earth's gravity and end up orbiting the planet for some time.
- Hard to detect: Only four mini-moons of Earth have ever been discovered,

2024 PT5

- Discovery: Discovered with the help of the NASA-funded Asteroid Terrestrial-impact Last Alert System (AT-LAS).
- Dimensions: Estimated to be just 33 feet long and is too small to be visible to the naked eye or through typical amateur telescopes.
- Significance:
- The observations of 2024 PT5 will help scientists expand the knowledge of asteroids that pass close to the Earth and those that sometimes collide with it.
- Many asteroids contain valuable minerals and water, which companies hope to extract one day and use for purposes such as rocket fuel.

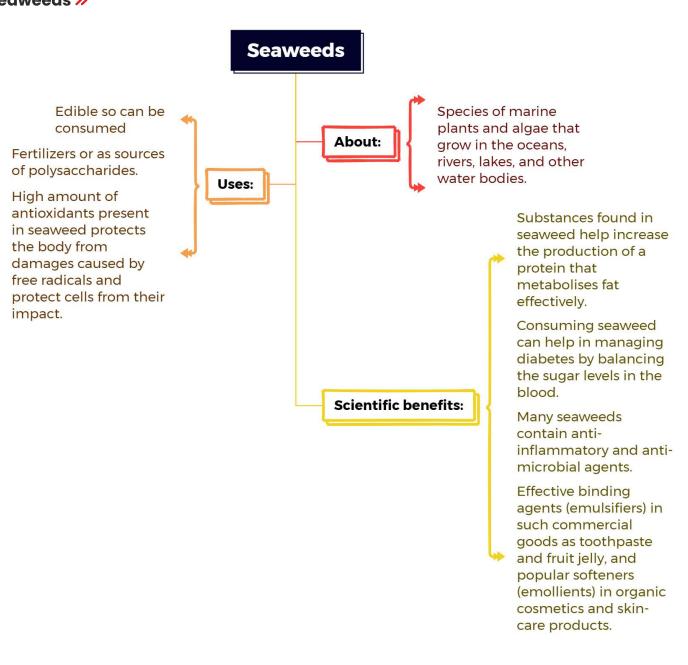

13. CMFRI unit designated seaweed research centre of excellence - The Hindu

Context >>

The Department of Fisheries under the Ministry of Fisheries, Animal Husbandry and Dairying has designated the ICAR-Central Marine Fisheries Research Institute (CMFRI) as a centre of excellence for seaweed cultivation.

Seaweeds >>

14. Necrotising fasciitis - Indian Express

Context >>

A 59-year-old British man from the Isles of Scilly, narrowly escaped death after a seemingly minor spider bite that turned into a life-threatening necrotising fasciitis.

Necrotising fasciitis/Flesh-eating disease
